ORDER IN TENS THROUGH THE CONCIERGE

A NOTE FROM THE STUDIO

Falguni is my mother. Long before I knew what a warp or a weft was, she showed me that beauty lives in *small, deliberate things:* a seam finished well, a gift wrapped like it mattered.

I went on to study textile engineering, and block print is where most of our work begins.

These pages are in three parts: pieces for a room, pieces a guest can carry home, and pieces for a shop shelf. Every photograph opens its page on our site.
